RE: 2021 – 2022 Tuition Assistance Process

Dear NCA Family,

Thank you for your interest in our tuition assistance program. Northshore Christian Academy assists families in meeting the cost of tuition through donations given to the school for that purpose, and by the school board's designation of funds for the school year.

All Tuition Assistance Applications utilize the online service for Tuition Assistance for School Tuition (**FAST**) to process applications. **FAST** is the standard submission format for all applications. **FAST** provides a need-based tuition assistance analysis service which includes a recommendation of what a family's financial assistance need is and what the family's reasonable contribution should be. All information from **FAST** is kept confidential. Results are reviewed by the NCA Tuition Assistance Committee who makes recommendations to the NCA School Board.

Please read the attached Tuition Assistance policies and procedures. Although there is a fee for **FAST's** evaluation of your financial needs, we believe their evaluation provides an equitable tuition assistance analysis of all applicants.

Tuition assistance applications for the 2021-2022 school year will be accepted by FAST on or after **February 1**. We will receive a report from **FAST** after your application has been received and evaluated. You will receive a letter of award from us by **May 31**. Please note that no Tuition assistance requests will be considered without a **FAST** recommendation.

If you have any questions about this process, please contact Tammy Gimbel at (425) 322-2301.

Sincerely,

Tuition Assistance Committee
Tammy Gimbel
